

## SPONSORSHIP

Sponsorship funds help to improve the festival's education outreach initiatives and keep EXPO Day free and open to the public. EXPO Day offers an opportunity for your employees to embrace the San Diego community and engage in hands-on activities with children and families who share a passion for learning more about STEM. For more information and to receive a sponsorship packet, please contact: **Sara Pagano**, *Managing Director* at [spagano@lovestemsd.org](mailto:spagano@lovestemsd.org) or by phone at: 858-455-0300 \*108.

## DONATE

Help us promote STEM Education and provide resources to parents, teachers, and students.

**To make a donation:**

# VOLUNTEER OPPORTUNITIES

excite your mind

## VOLUNTEER

Are you an advocate for STEM education?

The San Diego Festival of Science & Engineering relies on the support of over 200 volunteers to ensure the success of Expo Day and other festival week events.

Volunteer assignments range from a plethora of activities including but not limited to: supporting registration, being a STEM representative, helping with load-in and load-out on EXPO day, assisting with hands-on activities throughout festival week, photography, and many more.

## COMMITTEES

Would you like to be involved in the behind the scenes planning of the festival?

Consider joining the festival's Education or Volunteer Advisory committee. Committee members are expected to attend four meetings per year. Other responsibilities include educational outreach, volunteer coordination, programmatic insight, and upholding the mission and values of the festival.

## NIFTY FIFTY

**Timeline:** November 2014 - March 2015

**Program Info:** The Nifty Fifty program will bring STEM professionals into San Diego classrooms to inspire future generations to become STEM innovators. Nifty Fifty presenters are science and engineering professionals partnered with classrooms from San Diego County schools studying STEM topics that match their area of expertise.

## ASK ME BOOTH

EXPO Day brings over 24,000 STEM enthusiasts to PETCO Park for a hands-on and interactive celebration of STEM in San Diego. The Ask Me Booth gives students of all ages an opportunity to interact with real life STEM industry professionals.

Professionals are given "Ask Me I'm A Scientist (or Engineer)" buttons and placed in a lounge setting for students to interview.
