

## 2021 IMPACT REPORT Powerful STEAM engagement during unprecedented times

### Celebrating 13 years of serving the community

The San Diego Festival of Science & Engineering is an educational experience free and open to the public. It includes interactive demonstrations, hands-on activities and dynamic speakers to engage kids and families in all that encompasses STEAM (science, technology, engineering, arts and math). With all the challenges the pandemic brought for teachers, students and families, the Festival understood how critical it was to deliver content and programs that were widely impactful and accessible to all. This year's virtual delivery featured a main stage with two full days of livestreaming entertainment with shows and speakers, special events including Women in STEAM, COVID-19 – A Conversation for Kids & Teens, more than 100 pre-recorded general session videos across six categories and two teacher appreciation events. The Festival is the flagship event of Generation STEAM, a 501c3 nonprofit affiliate of Biocom California.

### STREAMING CONTENT AVAILABLE ON lovestemsd.org/2021

SanDiere Cenneth

Welcome to the 13th Annual San Diego Festival of Science & Engineering... gone virtual! We hosted live events April 24-May 2 and now all content is archived here through the end of 2021.

Scroll through the Welcome Center to view STEAM Week events and activities on demand or navigate through the slide-out sidebar at the top right of the page. We hope that you use this site as an ongoing reference point for STEAM educational resources

Enjoy

# PROGRAM HIGHLGHTS

THANK YOU FOR TAKING THE TIME TO ORGANIZE THIS SPECIAL EVENT FOR ALL OF US. THE PRESENTERS WERE WELL PREPARED AND INTERESTING, AND JOSH PROVIDED SOME AMAZING TOOLS THAT I LOOK FORWARD TO INCORPORATING INTO MY WEEKLY ROUTINES. I AM EVEN GOING TO SUGGEST THAT WE START HAVING A MINDFULNESS MONDAY AT SCHOOL TO TEACH THE STUDENTS SOME OF THESE SKILLS! – BARBARA, HIGH SCHOOL TEACHER

## TEACHER APPRECIATION WEEK

As a token of our appreciation for how hard teachers work every day, especially over the past year, we coordinated two special events just for teachers: a Virtual Class and "Being Mindful About Continued Learning." Teachers received all the supplies for the two interactive events, plus a special (and well-deserved!) self-care kit.

## COVID-19: A CONVERSATION FOR KIDS & TEENS

Over the course of the COVID-19 pandemic, scientists and medical professionals have been grappling to understand the novel virus, how it spreads and how to manage it through public health guidelines, vaccine development and distribution. It can feel like information overload, especially for kids and teens. Speakers in this session broke down the complexity of COVID-19 into an engaging, casual conversation starting with an experiment with germs and washing hands, and closed with a live Q&A with the audience.

Audience Reach: **12,178** 

ARE NO CONTACT SPORTS BREAKING ANY COVID RULES? (JOHN, AGE 16)

# PROGRAM HIGHLIGHTS

### MILITARY STEAM DAY Powered By: Viasat

We kicked off STEAM Week with a special MilKids event in partnership with the USO, Viasat and CSU San Marcos. We were honored to support military families and provide unique STEAM programing the whole family could enjoy. Each military family received an activity kit full of fun STEAM experiments. The families joined our volunteers live to create their hydraulic flowers and complete a special coding activity. Following the live virtual event, the families were able to reach back into their gift bags for more activities at home with follow-along videos.

## Audience Reach: 270 MILITARY FAMILIES

MY DAUGHTER TRULY ENJOYED LEARNING ABOUT CODING AND CREATING THE HYDRAULIC FLOWER. SHE COULDN'T STOP SHOWING OFF HER CREATIONI (PARENT)

**Live Activity** 

THANK YOU TO **OUR PARTNERS:** 

THANK YOU FOR GIVING MY CHILD THIS EXPERIENCE. ESPECIALLY UNDER THESE UNFORTUNATE TIMES. PARTICIPATING IN THIS ACTIVITY HELPED MY SON FEEL MORE A PART OF A CLASSROOM/LEARNING **TYPE ENVIRONMENT. (PARENT)** 

## LIVE STAGE

We live-streamed 16 hours of exciting STEAM activities and performances over two days. From exploding eggs and rainbow cakes, to liquid nitrogen and archaeological digs, the live stage was jam-packed with experiments and activities for all ages. Now you can go back and enjoy our live stage days by segment.

PIZEMIETZE SUITES VIRTUAL EXHIBITOR BOOTHS

Viewership numbers are only reflective of STEAM Week April 24 – May 2

# Audience reach (Live): 18,261

### VIRTUAL EXHIBITOR BOOTHS

Participants were able to get to know some of our sponsors' innovations in STEAM through photo and video at unique virtual booths! You're still able to download fun activities and DIY experiments to try whether at home or in school.

WWW.STEAMFESTIVAL2021.COM/VIRTUAL-BOOTHS

## SCIENCE.ING CHATS

Kids and adults alike joined the League of Extraordinary Scientists & Engineers in a behind-the-scenes look at the careers of 12 scientists and engineers. Each provided an introductory video and then went live for lab tours, experiments, Did-You-Know sessions and live Q&A!

Audience reach: 226

Our community partners submitted more than 100 pre-recorded videos covering STEAM content in the following categories: Career Talks, Company Tours, Did You Know?, Experiments & Activities, Leadership Library and Mentor Moments. The sessions are searchable by category and age group and will serve as a rich library of resources for educators and families for months to come.

Audience reach: 2,130

## CHOOSE YOUR OWN ADVENTURE WITH ILLUMINA FOUNDATION

Students and parents had the chance to join Illumina's scientists as they explored the habitats on land and sea at Torrey Pines. Participants learned how genomics and sequencing fit into our everyday lives. The Choose Your Own Adventure game is still available for explorers of all ages to play!

## STEAM WEEK EVENTS

Community partners came together to celebrate this year's virtual Festival week by curating and hosting over 40 events during this year's salute to science, technology, engineering, arts and math! The events scanned across our pre-K to gray followers and covered topics such as: gaming through your immune system, genetics and hereditary workshops, maker days with steam challenges and so much more!
